## Food series

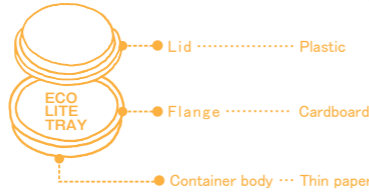

# ECO LITE TRAY

Japanese patent No.5507333

## ECO LITE TRAY - super light and yet has high resistance to deformation

ECO LITE TRAY is a new original container with more cost-cutting and also less weight than those existing paper containers, using cardboard for flange where requires strength and thin paper for container body.

### ECO-FRIENDLY product

We succeeded in decreasing the ratio of using materials compared to the same sized paper plates / trays. This is a next generation of eco-friendly paper container with more efficient use of resources.

※The above illustration is an image of oven. Please don't use over direct heat.

### High resistance to deformation after baking

ECO LITE TRAY has high resistance to deformation after baking due to using cardboard for flange.

### Cutting transportation cost and CO<sub>2</sub>
