

FLY LIGHTER WITH PAPER PAN

Paper Pan

Eco-friendly tray,
30% lighter and recycable.

Aticelca® 11364-0003

Paper Pan has the same characteristics as plastic trays, such as resistance to grease and liquids, rigidity and heat-sealability, with the added advantage of being 30% lighter than ordinary cardboard containers and therefore eco-sustainable. It is **recyclable with paper** in compliance with UNI11743:2119, UNI EN 13430. Paper Pan holds Aticelca® 501 B, certification, meaning that 80% of the paper used for every Paper Pan can be reused.
